NEW TEST

NOW AVAILABLE: SQCOV Semi-Quantitative Spike Protein IgG Antibody Test

Dear Valued Client;

We are very pleased to announce the launch of a Semi-Quantitative Spike Protein IgG Antibody Test Code: SQCOV.

This test detects IgG antibodies against the spike protein of the SARS-CoV-2 virus and provides numeric results that may aid in monitoring an individual's response to infection or to vaccination. This test will replace Test Code S1COV.

National Jewish Health Advanced Diagnostic Laboratories will begin accepting samples for the SQCOV testing as of Thursday July 1, 2021.

If you have questions, please call our Client Service Team at 800.550.6227 or email clinreflabs@njhealth.org.

Sincerely,

A handwritten signature in black ink that reads "C M Coeshott".
